Docket Nos. 50-313
50-368

Arkansas Power and Light Company
ATTN: Mr. William Cavanaugh III
Vice President of Generation
and Construction
P. O. Box 551
Little Rock, Arkansas 72203

Gentlemen:

Presently you are providing this office with two copies of the current ANO Unit 1 and Unit 2 P&ID's. One copy is being maintained in this office and the other copy is being forwarded on to our Headquarters office. IE Headquarters is using their copy to produce microfich for use in the NRC Emergency Response Center; however, the quality of the blueprints have in some cases precluded reproduction as microfich.

As discussed with John Griffin of your staff, a microfich copy would appear to be better suited for IE Headquarter's use and the blueprint hard copy is considered satisfactory for this office. We would therefore request that you provide a microfich copy directly to our Headquarters of all future microfich revisions and a present microfich of the drawings listed in Attachment 1 which we have been unable to reproduce in microfich. The microfich prints should be sent to the following address:

US Nuclear Regulatory Commission
Office of Inspection and Enforcement
ATTN: Eric Weinstein
Washington, D.C. 20555

Only one blueprint of the latest P&ID should be sent to IE Region IV in the future.

We thank you for your assistance.

Sincerely,

G. L. Madsen
G. L. Madsen, Chief,
Reactor Operations and
Nuclear Support Branch
