NOTE TO CHARLES LONG, DRL

This will confirm our recent discussions regarding the Oconee Unit 1 restricted area in which I advised that the definition of restricted area in 10 CFR Part 20, Section 20.3(14) precludes our approval of a restricted area which includes residential quarters. "Residential quarters" may not necessarily include every shelter however infrequently used as a residence in the sense of sleeping quarters. However, in this case, we are advised that the quarters for bachelor construction workers (on Units 2 and 3) in the vicinity of the construction project will be used as a residence for periods in excess of a year.
