

MAR 1 1977

Docket No. 50-270

Duke Power Company
ATTN: Mr. William O. Parker, Jr.
Vice President
Steam Production
Post Office Box 2178
422 South Church Street
Charlotte, North Carolina 28242

Gentlemen:

Your letter to us dated February 25, 1976, requested changes to the Oconee Nuclear Station Technical Specifications and requested that Attachment 2 entitled "Oconee Unit 2 Cycle 2 Reload Report Proprietary Pages" be withheld from public disclosure pursuant to 10 CFR Part 2.790. Your reason for requesting our withholding of Attachment 2 from public disclosure was that the data had been obtained from independently conducted studies investigating cladding creep collapse. You also stated that the data is not available in the open literature, and disclosure would provide knowledgeable individuals with information which might impair Babcock & Wilcox's competitive position in this area.

While such comments are valuable in aiding the Nuclear Regulatory Commission (NRC) in making its determination as to whether the information should be accorded privileged treatment and withheld from public disclosure, still further information is needed before the NRC can make a final decision in this matter. Your response should discuss the following factors:

1. Extent to which the information is known outside the business of the owner of the information;
2. The extent to which it is known by employees and others involved in his business;
3. The extent of measures taken by him to guard the secrecy of the information;
4. The value of the information to him and to his competitors;
5. The amount of effort or money expended by him in developing the information, and

8001130021

P

6. The ease or difficulty with which the information could be properly acquired or duplicated by others.

Failure to supply the above requested information or request the return of the subject document within thirty (30) days from the receipt of this letter will result in the material being placed in the NRC Public Document Room and the Oconee County Library.

Sincerely,

Original Signed By

A. Schwencer, Chief
Operating Reactors Branch #1
Division of Operating Reactors
