February 22, 972

D. E. Muller

OCONEE 2 AND 3
DOCKET NOS. 50-270 and 50-287

The DRL review plan, dated February 5, 1972, does not appear to include any REP input. As I understand it, the Oconee FES is specifically for Oconee 1, but the evaluation was written to include Oconee 1, 2, and 3. If this is true, some input from REP may be required; for example, the Oconee FES may have to be redistributed, or at least a letter may have to be written and distributed pointing out the fact that the Oconee FES also is applicable to Oconee 2 and 3 and has previously been prepared and distributed.

Please advise.
