Docket No. 50-346

April 18, 1977

Serial No. 268

Director of Nuclear Reactor Regulation
Attn: Mr. John F. Stolz, Chief
Light Water Reactors Branch No. 1
Division of Project Management
United States Nuclear Regulatory Commission
Washington, D. C. 20555

Dear Mr. Stolz:

This letter is in response to an oral request from Licensing Project Manager L. Engle regarding noise tests for The Toledo Edison Davis-Besse Nuclear Power Station Unit 1 in accordance with Mil. Standard 1990, Section 4.6.11 (or equivalent).

Within four months of the issuance of the facility operating license, Toledo Edison will provide to NRC staff acceptable procedures for subject noise testing. This commitment modifies the planned condition of the operating license identified in the 4th paragraph of your April 8, 1977 letter on the subject, Noise Test in Accordance With Mil. Standard 1990, Section 4.6.11 To Be Conducted on Non-Class IE Circuits That Interface With The RFS System - Davis-Besse, Unit 1.

Yours very truly,

LER:ss
