R. C. DeYoung, Assistant Director for Light Water Reactors, Group 1, RL

AAB INPUT TO DAVIS-BESSE SER

PLANT NAME: Davis-Besse Unit 1
LICENSING STAGE: OL
DOCKET NUMBER: 50-346
MILESTONE NUMBER: 24.31
RESPONSIBLE BRANCH: LWR 1-4; L. Engle, LPM
REQUESTED COMPLETION DATE: N/A
REVIEW STATUS: AAB Input Complete

Attached is the Accident Analysis Branch updated input by H. Fontecilla for Section 3.5 of the Davis-Besse 1 SER. This input reflects the ongoing work in the area of tornado missiles protection and supersedes the previous input in this area by APCSB.

2. In compliance with the Licensing Board's stringent time requirements, CEI hereby objects to the aforesaid document request of the Department of Justice and states that it does not intend to comply with this unreasonable demand of the Department for additional discovery material. CEI's reasons for taking this position are spelled out in part in its motion to quash the October 31 subpoena of the Department. In view of the fact that the Department has now elected to proceed pursuant to Section 2.741 of the Commission's Rules, having been unsuccessful in its attempt to invoke the subpoena powers of this Licensing Board under Section 2.720 of the Commission's Rules, there are additional considerations which this Licensing Board must also take into account in ruling on the question before it.

3. CEI will submit a memorandum discussing those additional considerations in response to the Motion of the Department for an order compelling production of the aforesaid documents (which Motion was also filed on November 21, 1975). In accordance with the extremely tight time schedule handed down by this Licensing Board on November 20, 1975, that response will be filed on December 2, 1975.

Respectfully submitted,
SHAW, PITTMAN, POTTS & TROWBRIDGE
