Mr. Donald H. Pack, Acting Director
 Air Resources Laboratory
 Environmental Science Services
 Administration
 8060 - 13th Street
 Silver Spring, Maryland 20910

Dear Mr. Pack:

Volumes 1, 2 and 3 of the Preliminary Safety Analysis Report filed by The Toledo Edison Company and The Cleveland Electric Illuminating Company with their application for authorization to construct and operate the Davis-Besse Nuclear Power Station are enclosed.

The proposed facility is to be located on the applicants' approximately 900-acre site on the southwest shore of Lake Erie, about twenty-one miles east of Toledo, in Ottawa County, Ohio.

Please review the enclosed volumes and provide us with your comments on the meteorological aspects of the Davis-Besse Station site which might have a bearing upon our safety review of the Davis-Besse Nuclear Power Station Unit No. 1.

Your prompt review and comments will be appreciated.

Sincerely yours,

Original signed by:
 Roger S. Boyd

Roger S. Boyd, Assistant Director
 for Reactor Projects
 Division of Reactor Licensing
