In Re: Florida Power Corporation
 Crystal River Nuclear Generating Plant
 Docket No. 50-302

Dear Sir:

Enclosed are three (3) executed originals and twenty four (24) conformed copies of Amendment No. 46 to the Application for Licenses for Crystal River Unit 3 Nuclear Generating Plant.

Amendment No. 46 is our annual update of our Application for Licenses as required by Appendix C of 10 CFR 50. It consists of revised pages and exhibits to the volume titled "Application for Licenses".

In addition, a new section titled "Supplement No. 1 to the Application for Licenses" is being filed with the Commission in response to the request for additional information contained in Enclosures 1 and 2 of Mr. Voss A. Moore's letter of June 10, 1975. Supplement No. 1 contains financial information connected with the joint ownership of Crystal River Unit 3 by Florida Power Corporation and eleven other utilities which took place on July 31, 1975.

To facilitate your staff's review of our response to the requests contained in Enclosures 1 and 2, a question and answer format has been utilized in Supplement No. 1.

As indicated in Mr. Moore's letter, the financial information included in Supplement No. 1 is required for the CP amendment admitting the additional participants as co-holders of the permit, and for a SER supplement addressing the OL issues.

Should additional information or discussion be required concerning this financial filing, please do not hesitate to contact this office.

Very truly yours,

 J.G. Rodgers
 Asst. Vice President
