

DOCKET NO. 50-312  
PROC. & UTIL. SEC.

June 13, 1979

POOR  
ORIGINAL

Nuclear Regulatory Commission:

Please do not re-open  
the Rancho Seco Nuclear Power plant  
near Sacramento, California. The  
dangers to our society from the  
Nuclear plants are much greater  
than the dangers of living in a  
society without electricity at all.  
We can live without electricity;  
we cannot live with nuclear  
radiation.

Sincerely,  
Linda Fay Walker
