January 27, 1978

Docket Nos. 50-313/368

Arkansas Power & Light Company
 ATTN: Mr. John W. Anderson, Jr.
 Plant Manager
 Arkansas Nuclear One
 Post Office Box 608
 Russellville, Arkansas 72801

Dear Mr. Anderson:

Your letter of October 24, 1977 identifies five individuals to whom AP&L wishes the NRC to issue dual licenses for Arkansas Nuclear One. Those individuals, Messrs. Terwilliger, Baker, McWilliams, Bell and Vandergrift, presently hold valid NRC licenses on Unit No. 1.

The NRC license examinations for Unit No. 2 are presently scheduled for March and April of this year. If these five are successful on the examinations, we will amend their present licenses to include operation of Unit No. 2. All other licenses in effect at Arkansas Nuclear One will be specifically for Unit No. 1 or Unit No. 2.

Sincerely,

Paul F. Collins

Paul F. Collins, Chief
 Operator Licensing Branch
 Division of Project Management
