Docket No. 50-10

Dr. W. Alexander Williams
Control Engineering Analysis Branch
Office of Radiation Programs
U. S. Environmental Protection Agency
Washington, D. C. 20460

Dear Mr. Williams:

This confirms the arrangements made by Mr. Paul O'Connor of my staff for you to review in our Bethesda office today Dow Chemical's proprietary information submitted to us by their letters dated March 3, 1975, and February 21, 1978. This information is related to Dow's formula for the NS-1 solvent. You have requested to examine this material in conjunction with your review of our Draft Environmental Statement for Dresden Unit No. 1 Decontamination (NUREG-0686) dated May 1980.

It is our understanding that you will not disclose this information, which is being made available to you in accordance with 10 CFR Section 2.790(b)(6) of the NRC's regulation and is protected by the Trade Secrets Act, 18 U. S. Code, Section 1905.

Sincerely,

for *Walter A. Paulson*
Dennis M. Crutchfield, Chief
Operating Reactors Branch #5
