

OFFICE OF THE
SECRETARY

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555

June 11, 1980

Dr. Donald F. Knuth
President
KMC, Inc.
1747 Pennsylvania Avenue, NW.
Washington, DC 20006

Dear Dr. Knuth:

This letter responds to your April 24 letter requesting the opportunity to assemble a group of persons from the nuclear industry or utilities to brief the Commission on their views on the proposed emergency planning regulations. The Commission has also received requests for such a meeting from Mr. D. E. Vandenberg of Yankee Atomic, Mr. W. H. Owen of Duke Power Company, and Mr. John Kearney of the Edison Electric Institute. The Commission has decided to schedule such a meeting in the near future. At that meeting, the Commission will also hear the views of a panel of State and local officials and of other public commenters.

Thank you for your concern and interest in this important rulemaking.

Sincerely,

Samuel J. Chilk
Secretary of the Commission
