MEMORANDUM FOR: Robert B. Minogue, Director
Office of Standards Development

FROM: Harold R. Denton, Director
Office of Nuclear Reactor Regulation

SUBJECT: EMERGENCY PREPAREDNESS RULE CHANGE

Based on the review of the Emergency Preparedness Program Office and the extensive discussions between the principals of the major offices involved, NRR concurs in sending the revised emergency preparedness rule forward to the Commissioners. The Supplementary Information should contain additional information on the technical justification for the 15 minute notification capability requirement. Brian Grimes is developing this material with the Probabilistic Assessment Branch, RES, and will provide it shortly.
