DOCKET NUMBER

PROPOSED RULE

PR-20 (54)
(45 FR 18023)

June 18, 1980

Docketing and Service Branch
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Sir or Madam:

On March 20, 1980, the Commission issued an Advance Notice of Proposed Rulemaking concerning possible major revisions to 10 C.F.R. Part 20. Today is the last day for public comment on that advance notice.

I am presently engaged in a long-range research project on state and federal regulation of radioactive air emissions from nuclear power plants. Although I do not have any comments to make, I would be most grateful if you could add my name to any mailing list which may be compiled in connection with such a rulemaking proceeding.

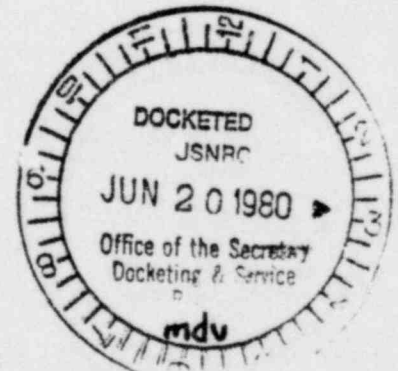

Thank you for your assistance.

Sincerely,

John-Mark Stensvaag

John-Mark Stensvaag
