ORDER

July 7, 1980

In compliance with the directive contained in our June 23, 1980 order, intervenor Ecology Action of Oswego has moved for leave to file out-of-time its June 20, 1980 submission on the generic radon issue presented in these consolidated licensing proceedings. Its motion represents that the submission had been filed on June 20 on the basis of a mistaken recollection that it was due on that date (rather than, as was the actual

fact, two days earlier). We accept that representation and also grant the motion.

It is so ORDERED.
