MAY 23 1980

Docket No. 50-344

LOCAL PUBLIC DOCUMENT ROOM

Portland General Electric Company  
121 S. W. Salmon Street  
Portland, Oregon 97204

Attention: Mr. Charles Goodwin, Jr.  
Assistant Vice President

Gentlemen:

Subject: NRC Inspection - Trojan

This refers to the inspection conducted by Mr. R. F. Fish of this office on April 14-18, 1980 of activities authorized by NRC License No. NPF-1, and to the discussion of our findings held by Mr. Fish with Mr. W. S. Orser and other members of your staff at the conclusion of the inspection.

Areas examined during this inspection are described in the enclosed inspection report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspector.

Based on the results of this inspection, it appears that certain of your activities were not conducted in full compliance with NRC requirements, as set forth in the Notice of Violation, enclosed herewith as Appendix A. These items of noncompliance have been categorized into a level as described in our correspondence to all NRC licensees dated December 31, 1974.

This notice is sent to you pursuant to the provisions of Section 2.201, of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations. Section 2.201 requires you to submit to this office, within twenty (20) days of your receipt of this notice, a written statement or explanation in reply including (1) corrective steps which have been taken by you and the results achieved; (2) corrective steps which will be taken to avoid further violations; and (3) the date when full compliance will be achieved. No response to Item B of Appendix A is required because you submitted a report on this matter, including the corrective actions taken. The April 17-18, 1980 inspection included an examination of pertinent information related to the excessive pH in the plant effluent and we have no additional questions at this time.

LOCAL PUBLIC DOCUMENT ROOM

MAY 23 1980

In accordance with Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter and the enclosed inspection report will be placed in the NRC's Public Document Room. If this report contains any information that you believe to be proprietary, it is necessary that you submit a written application to this office, within 20 days of the date of this letter, requesting that such information be withheld from public disclosure. The application must include a full statement of the reasons why it is claimed that the information is proprietary. The application should be prepared so that any proprietary information identified is contained in an enclosure to the application, since the application without the enclosure will also be placed in the Public Document Room. If we do not hear from you in this regard within the specified period, the report will be placed in the Public Document Room.

Should you have any questions concerning this inspection, we will be glad to discuss them with you.

Sincerely,

H. E. Book, Chief  
Fuel Facility and Materials  
Safety Branch
