NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D. C. 20555

JUN 25 1980

MEMORANDUM FOR: Those on the Attached List

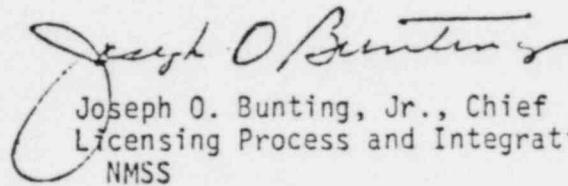

FROM: Joseph O. Bunting, Jr., Chief  
Licensing Process and Integration Branch, NMSS

SUBJECT: REVIEW OF FIRST WORKING DRAFT OF VOLUME II OF THE  
NATIONAL PLAN FOR RADIOACTIVE WASTE MANAGEMENT

Enclosed for your review and comment is a copy of the above subject document received today (6/24/80) from the U.S. Department of Energy (DOE), the lead agency in developing the National Plan. This document covers the detailed implementation aspect of the National Plan. The Volume I Strategy document will be provided to us in the near future.

We received only 15 copies of the draft and as a result some staff members in your organization may have to share the enclosed document.

The President's policy statement mandates a stringent schedule to issue a draft of the Plan to the public. Therefore, please provide your written comments, corrections, and any additional information on Volume II to me (427-4423) by COB on Monday, June 28, 1980 in order for us to submit comments to DOE by Tuesday, June 29, 1980. Please verify the accuracy and completeness of the writeup on Section 5 (Nuclear Regulatory Commission), as well as commenting on the total document. The current schedule calls for issuing a draft Plan to the general public in September 1980.
