

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D. C. 20555

PDR

JUN 4 1980

Ira L. Myers, M.D.  
State Health Officer  
State Department of Public Health  
State Office Building  
Montgomery, Alabama 36130

Dear Dr. Myers:

I appreciate your concern about the future role of the Office of State Programs expressed in your letter of May 26, 1980, to Chairman Ahearne. Your praise for the office's past efforts is most welcome.

I want to assure you that your views will be most carefully considered in any reorganization which may affect the Office of State Programs. The Nuclear Regulatory Commission remains committed to the idea of preserving close working relations with the States.

Thank you for your views; we hope you will continue to bring such issues to our attention.

Sincerely,

(Signed) William J. Dircks
