

OFFICE OF THE
COMMISSIONER

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555

June 12, 1980

COMMISSION
CORRESPONDENCE

Mr. Byron Lee, Jr.
Executive Vice-President
Commonwealth Edison
P. O. Box 767
Chicago, Illinois 60690

Dear Byron:

Please forgive my not responding earlier to your letter of May 2. Your thoughts were appreciated, and I took the opportunity to pass a copy of your letter to each of my colleagues.

I thought perhaps a copy of the remarks I provided to Public Utilities Fortnightly might be of interest to you and have enclosed them. I also recently commented on what I think to be the likely future of nuclear power in the United States at the South American Conference on Small and Medium Size Reactors in Montevideo. I also enclose a copy of those remarks and would appreciate any comment you might have.

Thank you again for your letter.

Sincerely,

Richard T. Kennedy
