

Lima, April 8th.1980

United States Nuclear Regulatory Commission  
Att.  
Mr. Richard T. Kennedy  
UNITED STATES OF AMERICA

Dear Sir:

We have the pleasure to cordially invite you to participate in the WORLD CONGRESS OF METALLURGY which will be held in Lima-Peru from the 16th-21th June 1980.

The Congress is organized by the Association of Metallurgical Engineers of Peru, sponsored by the National Institute of Planification and amply backed by the Peruvian Government. We would highly appreciate your making this invitation extensive to those professionals, institutions or persons who in one way or another are related with metallurgy.

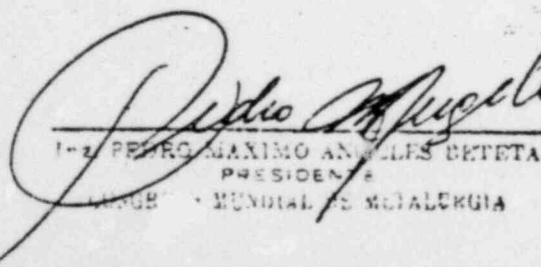

According to publications of OPEC, it is of world wide knowledge that the petroleum resources will come to an end. In view of this problematic the world must coordinate the maximum strength in order to make usage of other energetic means which may substitute petroleum.

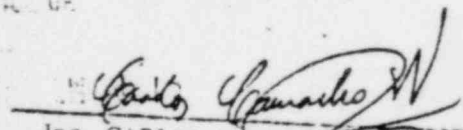

All the information concerning the development of this important event is contained in the attached leaflet.

Your presence and technical contribution to the World Congress of Metallurgy will be highly valued by the organizers of said event.

In the assurance of counting with your participation in the Congress, we remain

Yours truly,

  
Pedro Maximiliano Beteta  
PRESIDENTE  
COMITE MUNDIAL DE METALURGIA

COMUNICACION PERUANA  
RECIBIDA EN  
  
Ing. CARLOS CARRASCO NAVARRO  
SECRETARIO GENERAL Y DE FINANZAS  
COMITE MUNDIAL DE METALURGIA
