Dear Mr. Goodwin:

By letter dated May 16, 1980, the Office of Inspection and Enforcement sent you Information Notice 80-21, "Anchorage and Support of Safety-Related Electrical Equipment". No specific action or response from you was requested.

However, since the deficiencies found at other plants may have a bearing on the seismic qualification of electrical equipment, we request that you provide a written response for the information of the Licensing Board and all parties in the Control Building proceeding.

Sincerely,
