Docket 50-193

Dear Mr. MacDonald:

Please refer to your letter FCTC:RHO, 71-0017 dated April 30, 1980, concerning the need for additional information concerning our QA Program for the use of the BMI-1 shipping package.

For our June 19, 1978 submittal, we assumed that we would satisfy the requirements of 10CFR 71.51 if we submitted a QA package specific to the use of BMI-1 for shipment of spent fuel. Therefore, we submitted a specific program derived from our overall QA/QC Program.

Enclosed are seven copies of our QA/QC Program which provides the 41 points of information which you requested. For your convenience we have indicated in the margin of the submittal where the information is presented. The numbers in the margin are keyed to your questions.

Very truly yours,

A. Francis DiMeglio
