CERTIFIED MAIL NO. 427048  
RETURN RECEIPT REQUESTED

Mr. John Linehan  
U.S. Nuclear Regulatory Commission  
Mail Stop SS483  
Washington, D.C. 20555

Dear John:

Re: Docket No. 40-8728  
SUA 1373, Stipulation 32

Enclosed is a copy of the original letter (and attachment) I sent to you on June 6, 1980. We had originally taken the precaution of forwarding this information to you via certified mail. A Ms. Jean Ricks (or Richs) signed the return receipt on June 10, 1980, acknowledging that the U.S. NRC had received the information addressed to you. Attached is a copy of the signed return receipt for your records.

Mr. Ron Kaufmann informed me today that to date you have not received the June 6, 1980 letter. As such I am once again forwarding this information to you. We understand that you will need some time to review the enclosed letter; however, I must stress that our operation has been put in a holding pattern awaiting your decision concerning the Leuenberger Reservoirs. We are no longer injecting leach solution into the N Zone and cannot proceed with groundwater restoration until the NRC completes its review of our ponds.

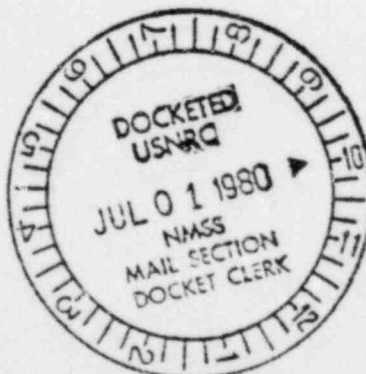

In light of the dilemma concerning the forwarding of mail within the NRC organization, we respectfully request your assistance in a timely review of the enclosed material. Should you have any questions concerning our ponds, please call me as soon as possible. Thank you for your concern and understanding.

Sincerely,

UNC TETON EXPLORATION DRILLING, INC.
