

July 3, 1980

Mr. James G. Keppler
Director
United States Nuclear
Regulatory Commission
Region III
799 Roosevelt Road
Glen Ellyn, Illinois 60137

Dear Mr. Keppler:

This is to confirm Mr. Stephen Wilner's telephone conversation of today with Mr. Donald Sreniawski from your office regarding the NRC's letters to Chemetron Corporation and McGean Chemical Company, Inc. with respect to the McGean Disposal Dump in Newburgh Heights, Ohio.

NL Industries, consultant for both of the above companies, has informed us that they will not be able to complete an assessment of the above-mentioned site until July 25, 1980. Therefore, Mr. Wilner requested an extension of the July 11, 1980 date referred to in the above-mentioned NRC letters. Mr. Sreniawski informed Mr. Wilner that he would inform you of this request and that unless McGean Chemical and Chemetron are notified to the contrary, this request would be granted.

Mr. Zellner of McGean Chemical has informed us that McGean Chemical joins with Chemetron in this request for an extension.

Thank you for your consideration.

Very truly yours,

Raymond S. Fries
Vice President
