Gentlemen:

This refers to the inspection conducted by Dr. M. J. Cestmann of this office on May 27-29, 1980, of activities at the Zion Nuclear Power Station, Units 1 and 2, authorized by NRC Operating Licenses No. DPR-39 and No. DPR-48 and to the discussion of our findings with Mr. Wandke and Dr. J. Golden and other members of your staff at the conclusion of the inspection.

The enclosed copy of our inspection report identifies areas examined during the inspection. Within these areas, the inspection consisted of a selective examination of procedures and representative records, observations, and interviews with personnel.

During this inspection, certain of your activities appeared to be in noncompliance with NRC requirements, as described in the enclosed Appendix A.

This notice is sent to you pursuant to the provisions of Section 2.201 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations. In accordance with Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter, the enclosures, and your response to this letter will be placed in the NRC's Public Document Room, except as follows.
