Dr. Thomas Buhl  
New Mexico Environmental  
Improvement Division  
P. O. Box 968, Crown Building  
Santa Fe, New Mexico 87503

Dear Dr. Buhl:

As you are aware, the contract which the NRC established with Battelle Pacific Northwest Laboratories (BPNL) to provide the mobile laboratory for sample analysis at the Church Rock mill site also included a subtask to provide a verification sampling scheme. In order to fulfill this subtask obligation, Dr. R. Kinnison was requested to briefly review your proposed sampling scheme as outlined in your letter to H. Miller, dated April 23, 1980. Enclosed is Dr. Kinnison's response to this request.

Sincerely,

A handwritten signature in cursive script that reads "Gregory Eadie".

Gregory Eadie  
Uranium Recovery Licensing Branch  
Division of Waste Management

Enclosure:  
As stated
