Re: Application for License to Export
Slightly Enriched UF6 and Slightly
Depleted UF6 to Japan

RECEIVED
U.S. NRC

1980 JUN 30 AM 11 43

Gentlemen:

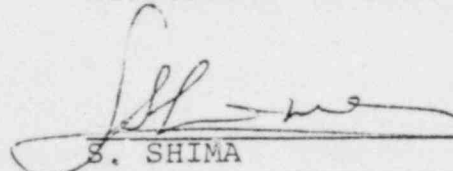

Enclosed please find herewith our application in triplicate for the export license for slightly enriched UF6 and slightly depleted UF6 (Ref. No. HSA-6702-01/02/03) to be used by Mitsubishi Heavy Industries, Ltd., Japan for the research and development of ultra-centrifuge for uranium enrichment.

The supplier of the material is U.S. Department of Energy (Oak Ridge Enrichment Plant operated by Union Carbide.)

Should you have any questions, please call us at 212-922-3778.

Very truly yours,

MITSUBISHI INTERNATIONAL CORP.
