

JUL 09 1980

Mr. William G. Rueter  
Tech Aid Inc.  
31 Winthrop Street  
Charlestown, Massachusetts 02129

Dear Mr. Rueter:

This is in reference to your August 1, 1978 license application for the export of 8.5 metric tons of heavy water to the Institute of Nuclear Research located in Taiwan (XMAT0003). As you are aware, the NRC has received information from the Coordination Council of North American Affairs that the material is no longer required by the customer since the project which would have utilized the material has been cancelled. Accordingly, we are returning your license application without action.

Sincerely,

Marvin R. Peterson, Acting Assistant  
Director  
Export/Import and International Safeguards  
Office of International Programs
