Director of Nuclear Reactor Regulation
Attn: Mr. Dennis M. Crutchfield, Chief
Operating Reactors Branch #5
U. S. Nuclear Regulatory Commission

Gentlemen:

Haddam Neck Plant
Proposed Changes to Technical Specifications

Pursuant to 10CFR50.90 and Section 5.6.3 of the Environmental Technical Specifications (ETS), Connecticut Yankee Atomic Power Company (CYAPCO) hereby proposes to amend its operating license number DPR-61.

Attachments 1 and 2 are proposed changes to the Appendix A Safety Technical Specifications and Appendix B ETS, respectively, of DPR-61. These changes merely reflect recent title changes within the Northeast Utilities' organization, and as such, do not affect either the safety or environmental impact of plant operation. They have been reviewed by CYAPCO pursuant to 10CFR50.59; 10CFR50, Appendix I; 10CFR20; and 40CFR190, as appropriate, and have not been found to constitute an unreviewed safety question or an unreviewed environmental impact. Cost/benefit analysis is not applicable in this instance.

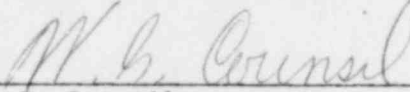

Both the Connecticut Yankee Nuclear and Environmental Review Boards have reviewed and approved the changes and concurred in the above determinations.

800724053 P

In reviewing the proposed changes pursuant to 10CFR170, CYAPCO has determined this to be a Class II Amendment. The basis for this conclusion is the administrative nature of the changes. They have no safety or environmental significance. Therefore, enclosed is a check in the amount of \$1,200 (twelve hundred dollars) as full payment of the amendment fee.

Very truly yours,

CONNECTICUT YANKEE ATOMIC POWER COMPANY
