Mr. Karl V. Seyfrit, Director  
U.S. N.R.C., Region IV  
611 Ryan Plaza Drive, Suite 1000  
Arlington, Texas 76012

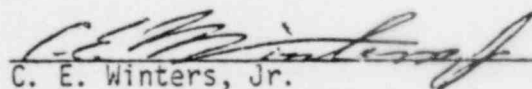

Dear Sir:

In response to the IE Bulletin No. 79-19, dated August 10, 1979, Todd Research & Technical Division's response relates to our SNM-1015 license under which no radioactive waste has been generated over the last 5 years and forecast the same over the remaining lifetime thereof.

TRT does, however, generate a considerable amount of low-level radioactive waste under our State of Texas Radioactive Material License Nos. 8-871 and 8-1231, and are completing the same basic type of information for that agency.

Should you have any questions, please feel free to call me at anytime.

Sincerely,

  
C. E. Winters, Jr.  
Radiation Safety Officer
