Gentlemen:

Thank you for your letter dated June 6, 1980, in response to our letter dated May 21, 1980. In order for your response to be considered complete, we require some additional information regarding the "administrative control" measures you have or are about to institute. Specifically, those changes involving record control and centralization, personnel, isotope committee functions and other modifications as discussed during the inspection that have or will facilitate the management control over your licensed activities.

With respect to the first item of noncompliance regarding bioassays, we have noted those records supplied with your response which were not available during the inspection. We will correct our records accordingly. Your additional response to this letter will be due in ten days from receipt of this notice.

We will gladly discuss any questions you have concerning this inspection.

Sincerely,

James G. Keppler
James G. Keppler
