Dear Dan:

Enclosed are some photos of the 10% inspection of embankment #3 and the lining of Cell #2 of Energy Fuel Nuclear, White Mesa Project, Blanding, Utah in April 1980.

Also, one typographical error must be corrected in the April 18, 1980 report on Page 3, Paragraph h, line 4; the statement

" . . . 13" along the embankments."

should be:

" . . . 18" along the embankments."

This change is critical for license compliance.

If you have any questions, please call me at (303)491-6081 or (303)491-6707.

Very truly yours,

Steven R. Abt
