

PROPOSED RULE

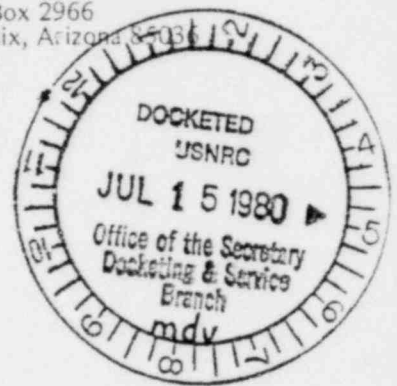

PR-34 (2)

(45 FR 39856)

July 10, 1980

P.O. Box 2966
Phoenix, Arizona 85003

Secretary
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Attention: Docketing and Service Branch

Gentlemen:

In response to your request for comment of the proposed amendment to 10CFR 34.33(e) to limit requirements for the retention of records of daily readings of pocket dosimeters, I am in total agreement with this change. In fact, I see no need for retention of these daily readings in excess of one year, except for reasons as noted in the proposal.

Sincerely,

Marvin O. Meier
Manager Quality Control
