MEMORANDUM FOR THE FILES

FROM: Betty L. Wright
Licensing Officer
Office of International Programs

SUBJECT: XSNM01702, SNM TO BE EXPORTED UNDER GENERAL LICENSE

NBS confirmed that the material requested for export on this application is in sensing components installed in instruments. I advised them, therefore, that the enriched uranium could be exported under a general license in accordance with 10 CFR 110.22(a); however, a component and a byproduct license would be required to export the instruments and the Neptunium-237 and Americium 241.

Betty L. Wright
