In the Matter of
Virginia Electric and Power Company
(Surry Power Station, Units 1 and 2)
Docket Nos. 50-280, 50-281

Dear Mr. Gambardella:

A copy of the NRC Staff's Safety Evaluation Report (SER) on Virginia Electric and Power Company's program for the repair of the steam generators at the Surry Nuclear Power Station is enclosed.

The issue date of this SER is December 15, 1978. As you are very aware, the Licensing Board's Order dated February 9, 1978, provides that, should she decide to do so, the Commonwealth shall have ten (10) days after issuance of the SER in which to file a petition for leave to intervene.

Sincerely,

James M. Cutchin, IV
Counsel for NRC Staff
