COUNTY COMMISSIONERS

JACK F. TRACY, Chairman

RAYMOND G. HERR

JEAN D. MOWERY

December 14, 1978

Mr. Stanley Kirslis, Project Manager  
U. S. Nuclear Regulatory Commission  
Washington, D. C. 20555

Dear Mr. Kirslis:

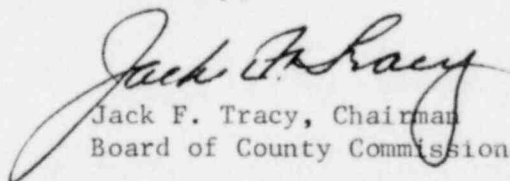

This is a follow-up to my correspondence of July 25 regarding the proposed Fulton Nuclear Generating Station.

The Lancaster County Planning Commission, in anticipation of the Philadelphia Electric Company's possibly making an application in the near future, has begun to review the possible impacts of the proposed facility on Lancaster County. Specifically, its Land Use Advisory Committee and Sewer and Water Advisory Committee will be evaluating the proposal from their two perspectives.

Since the Planning Commission will be most closely involved with this review, I am writing to inform you that, in the future, the Planning Commission will be the primary spokesman for the County of Lancaster with regard to the proposed facility. This is consistent with their role on other review matters relating to planning.

You may therefore correspond with the Planning Commission with future requests for comments. They will keep us County Commissioners informed, and we will let you know if we have anything to add to the Planning Commission's comments.

Sincerely,

  
Jack F. Tracy, Chairman  
Board of County Commissioners
