Inspection Summary:

Inspection on October 2-6, 1978 (Report No. 50-286/78-29)

Areas Inspected: Routine, unannounced inspection of Physical Protection Program to include the implementation of 10 CFR 73.55 relative to: the security plan; physical barriers; access controls; communication controls; detection aids; testing and maintenance. The inspection involved fifty-eight (58) hours on site by two (2) NRC regional based inspectors.

Results: Of the six areas inspected, no items of noncompliance were found in four of the areas. Items of noncompliance were found in two of the areas: Physical Barriers (Failure to properly maintain the isolation zone) and Access Controls (Failure to have complete access control records).
