Dear Sirs, DOCKET NUMBER
PROD. & UTIL. FAC. 50-320(44FR48827)

I wish to comment on the use
of Epicor II water purification system
at T.M.S., Middletown, Pa. I go on
record as being completely opposed as
this system has never been tried before.
Furthermore, there will be solid radioactive
wastes + storage tank cleansing water to dispose
of. Additionally, there is another 600,000
gallons of more highly radioactive water
stored in T.M.S. (UNIT II) containment building.

Being a resident of Lancaster County,
Pennsylvania, and a consumer of drinking
water, I am highly concerned about present
+ future dumping of contaminated wastes.

Please comment. Thank you. Sincerely
DALE STRICKLER
