UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

OCT 24 1979

Mr. J. Carl Freedman
Box 553
Cannon Beach, OR 97110

Dear Mr. Freedman:

Thank you for your letter of inquiry regarding events at the Three Mile Island Nuclear Power Station. I regret that this answer to your letter has been delayed. The accident and its consequences have created a substantial increase in the agency's workload, which has prevented us from responding to you as promptly as we would have liked to.

I am enclosing summaries of two Nuclear Regulatory Commission Reports that address the questions you have asked. The reports from which these summaries were taken and their availability are listed below:

"Investigation into the March 28, 1979 Three Mile Island Accident by Office of Inspection and Enforcement" (NUREG-0600), \$10.00, and

"Population Dose and Health Impact of the Accident at the Three Mile Island Nuclear Station" (NUREG-0558), \$3.50.

You may be interested in another Nuclear Regulatory Commission report entitled "TMI-2 Lessons Learned Task Force Status Report and Short-Term Recommendations" (NUREG-0578), \$3.50.

All subsequent information about Three Mile Island and its availability are listed in "Title List of Publicly Available Documents: Three Mile Island - Docket 50-320" (NUREG-0568), and its revision, NUREG-0568, Revision 1. Their cost is \$4.50 and \$5.50 respectively.

All of these publications can be obtained by writing to the following address:
