Valve Wall Thickness Measurements

Dear Mr. Moseley:

Please find enclosed ten copies of Revision 3 to our Valve Wall Thickness Report for Oconee Nuclear Station, Units 1, 2, and 3.

As a result of the July 5, 1973 conference telephone conversation between Dresser, Duke Power Company, and Regulatory Operations, Dresser has re-evaluated wall thickness calculations for the pressurizer relief valves 1, 2, 3 RV-67. Revision 3 to the wall thickness report for Oconee Nuclear Station incorporates the results of these calculations.

Very truly yours,

A. C. Thies
