Re: Oconee Nuclear Station  
Docket Nos. 50-269, 50-270, 50-287

Dear Mr. Moseley:

In order to provide for the coordinated and expeditious handling of communications between your office and Duke Power Company relative to Oconee Nuclear Station, the attached listing of Duke Power Company personnel responsible for NRC communications is transmitted for your information and use. This listing revises the listing which was transmitted by our letter of December 12, 1975. It is requested that the attached be disseminated to affected personnel within Region II and that communications initiated by Region II personnel be through the appropriate identified individual(s) within the Duke organization. Likewise, communications initiated by Duke will also be via individuals identified in the attached.

It is understood that the attached does not preclude Nuclear Regulatory Commission personnel from communicating with other Duke personnel as necessary for the proper fulfillment of Regulatory responsibilities and requirements.

The information provided herewith will be updated in the future as necessary.

Very truly yours,

*W. O. Parker, Jr.*
