SUBJECT: MIDDLESEX CARDIOLOGY ASSOCIATES, P.C., CONSENT TO TRANSFER
LICENSE, MAIL CONTROL NO. 611570

Dear Dr. Corning:

By the letter dated February 25, 2019 (ML19074A096), Middlesex Cardiology Associates, P.C. submitted to the U.S. Nuclear Regulatory Commission (NRC) a request for consent for a direct license transfer of NRC Materials License No. 06-23559-01. On February 1, 2019 ownership of Middlesex Cardiology Associates, P.C. was transferred to Hartford HealthCare Medical Group, Inc., a subsidiary of Hartford Healthcare Corporation. As such, control of Middlesex Cardiology Associates, P.C. was directly transferred to Hartford HealthCare Medical Group, Inc. and indirectly to Hartford HealthCare Corporation. We further understand that this transfer did not result in any changes to the licensed materials, persons using the licensed material, locations of use, or persons responsible for the radiation safety program.

This license transfer request was a request for after-the-fact approval of a direct license transfer that resulted from the transaction that occurred on February 1, 2019, without receiving prior written consent from the Commission beforehand, as required by NRC regulations and the Atomic Energy Act of 1954, as amended. This post-hoc license transfer request is an apparent violation of NRC requirements; enforcement is being pursued separately.

Based on the above understandings, as more fully detailed in the enclosed Safety Evaluation Report, which documents the NRC staff's review of the request, and in accordance with 10 CFR 30.34, the NRC consents to the transfer. Please note that since this transaction already occurred, no other action is required. If you have any questions regarding this letter, please contact Robert Gallagher at (610) 337-5182 or by e-mail at robert.gallagher@nrc.gov.

Future changes in the licensee's name, licensed use, licensed materials, licensed location, or persons responsible for licensed material require submission of a request to amend the license. NRC approval must be received *prior* to implementation of the proposed change.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web Site at: <http://www.nrc.gov/reading-rm/adams.html>.
