

Nov 27 2x041

RESOLUTION OF THE EXECUTIVE BOARD

OF THE

EAST YORK ELEMENTARY SCHOOL PARENT - TEACHERS' ASSOCIATION

APRIL 30, 1979

WHEREAS, THE nuclear accident which occurred at Three Mile Island on March 28, 1979, has revealed the following information about nuclear power in general and Reactors No. 1 and No. 2 at Three Mile Island in particular:

1. that the accident in Reactor No. 2 was the worst nuclear accident in the history of nuclear power generating facilities;

2. that the Federal Nuclear Regulatory Commission, hereinafter cited as "NRC," found that Nuclear Reactor No. 2 was out of control for several hours that day;

3. that there continued to exist a great potential for a core meltdown at Reactor No. 2 for several days thereafter, that radiation leaks continue to jeopardize health, and that the Three Mile Island facility will in the future continue to be a health risk to the citizens of South Central Pennsylvania;

4. that, according to the NRC, the accident resulted from a combination of design errors by the manufacturer, Babcock & Wilcox, Co., mechanical failures and human errors, such as the turning off of reserve safety control systems for two weeks prior to the accident;

5. that the technology required to prevent similar potentially disastrous accidents at this or other nuclear power plants has yet to be developed;

6. that a core meltdown at Nuclear Reactor No. 2 would devastate this geographical area, killing thousands, causing untold cancer and genetic disorders in others, contaminating farmlands for hundreds of years and contaminating the Susquehanna River, thereby rendering uninhabitable most of South Central Pennsylvania.

7912280 492

7. that the NRC has discovered similar safety violations in Nuclear Reactor No. 1 at Three Mile Island;

8. that the Three Mile Island facility lacks the means to safely dispose of its nuclear wastes.

Now, therefore, the Executive Board of the East York Elementary School Parent - Teachers' Association acting in genuine concern for the safety and well-being of the children, faculty, and staff of the East York Elementary School as well as of all the residents of South Central Pennsylvania resolve the following:

1. that the NRC should prohibit the reactivation of either Reactor No. 1 or Reactor No. 2 at Three Mile Island unless and until:

- a. both reactors and all auxiliary facilities are totally decontaminated;
- b. all mechanical systems at the site are inspected by the NRC and found to be safe to the extent that no such potentially dangerous accident can ever occur again;
- c. capable and qualified employees of the NRC are stationed on site at Three Mile Island twenty-four hours a day, every day of the week, forever, with independent powers to override any operational decision of the operator, Metropolitan Edison, and to shut down the facility in the event of a threatened danger;
- d. the mechanical systems of the nuclear reactor are designed so that the operator cannot, without action by the representative of the NRC, shut down any automatic safety control systems; and
- e. the safety of the citizens from danger resulting from transportation and disposal of nuclear waste from the Three Mile Island facility be guaranteed;

2. that a copy of this Resolution be forwarded to the President of the United States, the United States Senators from the Commonwealth of Pennsylvania, the United States Congressmen from the Commonwealth of Pennsylvania, Governor of the Commonwealth of Pennsylvania, the members of the Senate and House of Representatives of the Commonwealth of Pennsylvania from York, Adams, Dauphin, and Lancaster counties, Chairman of the Nuclear Regulatory Commission, each member of the Pennsylvania Public Utility Commission, to each member of the York Suburban School Board, and to other appropriate persons.

Lois Miller

Lois Miller, President
East York Elementary School
Parent - Teachers' Association

Honorable William Goodling
Rep. 19th Congressional District

5/14/79

Dear Bill,

These 2,402 people call on you, as our elected representative, to present our petition to the Nuclear Regulatory Commission.

This petition calls upon the NRC to permanently shutdown and decommission Three Mile Island Nuclear Reactors #1 and #2.

The spirit of administrative law by which the NRC should act requires the NRC to hold public hearings and to establish by sworn testimony, the true costs and benefits to the public of any major licensing decision. These 2,402 people, who have established their interest in this matter by giving the distance from TMI to their homes, believe that the radioactive clean-up of the accident, the plans to refit and reactivate the plant, and the continued operation of this plant by a company near bankruptcy are indeed major licensing decisions which must be influenced by the effected public.

We ask you to ask the NUCLEAR REGULATORY COMMISSION ~~to obey the law.~~

Sincerely,

John H. Davenport

Secretary,
York Committee for a Safe
Environment
33 E. Philadelphia St
York, Pa. 17401

Attached:
2,402 Signatures to
PETITION TO SHUTDOWN TMI

P E T I T I O N T O S H U T D O W N

T H R E E M I L E I S L A N D

We the undersigned find the risks of catastrophic accident from Three Mile Island unacceptable for ourselves, our children, our property, and our domestic animals. We therefore petition the Nuclear Regulatory Commission to permanently shutdown and decommission Three Mile Island Nuclear Reactors Units #1 and 2, dockets 50-289 and 50-320.

TO THE PENNSYLVANIA PUBLIC UTILITY COMMISSION:

WE, THE UNDERSIGNED, CITIZENS OF THE COMMONWEALTH OF PENNSYLVANIA AND CUSTOMERS OF THE METROPOLITAN-EDISON COMPANY, DO HEREBY PETITION THE PENNSYLVANIA PUBLIC UTILITY COMMISSION TO DENY ANY RATE INCREASE OR FUEL ADJUSTMENT CHARGE THAT THE METROPOLITAN-EDISON COMPANY MAY REQUEST TO OFFSET THE FINANCIAL LOSSES INCURRED BY THE COMPANY AS A RESULT OF THE ACCIDENT AT THREE-MILE ISLAND.

WE BELIEVE THAT IT IS A GROSS INJUSTICE TO EXPECT THE CONSUMER TO BE HELD RESPONSIBLE FOR ANY LOSS OF REVENUES RESULTING FROM THE THREE-MILE ISLAND INCIDENT, AND WE ASK THAT THE BURDEN OF FINANCIAL LIABILITY BE PLACED ON THE INSURANCE CARRIER, THE MANUFACTURER OF THE NUCLEAR FACILITY, THE INVESTORS AND THE STOCKHOLDERS OF THE METROPOLITAN-EDISON COMPANY.
