BETHESDA
MARYLAND 20545

ATTENTION MR CL.W. BECK OR MR R.S. BOYD

ON MAY 14, 1968, SOME COLLEAGUES AND I HAD THE PLEASURE OF MEETING YOU IN ORDER TO EXAMINE SOME ASPECTS RELATED TO GENERAL DESIGN CRITERIA.

WE APPRECIATED THE POSSIBILITY YOU OFFERED TO CONTACT YOU AGAIN FOR OTHER ASPECTS.

I WOULD LIKE TO TAKE THIS OPPORTUNITY TO INTRODUCE A FEW QUESTIONS RELATED TO CRITERIA ASSOCIATED WITH STEAM AND FEEDWATER LINE RUPTURE, IN THE FRAME OF THE TIIHANGE NUCLEAR POWER STATION (BELGIUM) DESIGN WHOSE NUCLEAR STEAM SUPPLY SYSTEM IS VERY SIMILAR TO THAT OF BEAVER VALLEY.

WOULD IT BE CONVENIENT FOR ONE OF YOUR MEMBERS TO RECEIVE ME AND ONE OR TWO COLLEAGUES ON THURSDAY NOVEMBER 18, IN THE AFTERNOON. AN ANSWER BY TELEX WOULD BE HELPFUL. OUR NUMBER IS 21852 ELECTROBEL BRUSSELS.
VERY TRULY YOURS.
