SUPPLEMENT TO YORK COUNTY INTERVIEW

On November 20, 1979, I spoke to Doris Lott, York County Emergency Management Agency, regarding the center for housing pregnant women and preschool children established by York County following the Governor's advisory of March 30. Ms. Lott told me the shelter was opened March 30 and was closed April 1 because of the small number of residents. All residents found places to stay with friends and relatives and none went to the shelter at the Hershey Arena.
