SSINS No. 0430

MEMORANDUM FOR: D. Vassallo, Acting Director, DPM/NRR
 D. Eisenhut, Acting Director, DOR/NRR
 G. Arlotto, Director, DES/SD
R. C. DeYoung, Deputy Director, NRC/TMI Investigation Group

FROM: Norman C. Moseley, Director, Division of Reactor
 Operations Inspection, IE

SUBJECT: OBSERVATIONS RELATING TO PERSONNEL, PROCEDURES, AND
 ORGANIZATIONS RESULTING FROM TMI

Enclosed for your consideration is a memorandum from R. H. Wessman, an inspector in our Region II office, which outlines his observations regarding the TMI accident. Mr. Wessman's observations reflect his experience in the Navy Nuclear Program, and as an engineer with the Babcock and Wilcox Company, as well as a reactor inspector. Based on our review of the enclosed information, we have concluded that these observations may provide additional insight for planned or ongoing effort in each of your organizations. Enclosure 2 provides our understanding of the NRC organization with the primary responsibility for the identified activity, along with the proposed action for several of the items. However, we recognize that some items may also fall under the responsibility of other organizations.

We recommend that those organizations that have primary or secondary responsibility for the activity associated with each of the items in the enclosed memorandum consider the related information in connection with their review and upgrading of NRC programs as a result of the TMI accident. Either I or other members of my staff, including Mr. Wessman, will be pleased to assist you in this regard.

Norman C. Moseley
 Norman C. Moseley
 Director
 Division of Reactor
 Operations Inspection, IE
