## MEMORANDUM

BABCOCK &amp; WILCOX

FEBRUARY 6, 1979

FROM: E. A. WOMACK  
LYNCHBURG, VA.

74

Attached is a copy of a letter dated January 31, 1979 from J. E. Foster, United States NRC Region III, to J.H. Taylor which requests a meeting with us in connection with his investigation regarding the evaluation of loss of pressurizer level indication at the Davis-Besse Unit. I understand that this meeting is now scheduled for February 14 and that you are coordinating the preparations along with Licensing.

I understand that you will be prepared to recommend a B&W position on these matters to an in-house meeting on February 9. I will look forward to a full review of this important subject at that time. Thanks,

EAW/dww
