

June 8, 1977

Mr. Lex Tsaggaris  
Metropolitan Edison Company  
Three Mile Island Nuclear Station  
P.O. Box 480  
Middletown, Pennsylvania

Subject: Cold License Training  
Certification

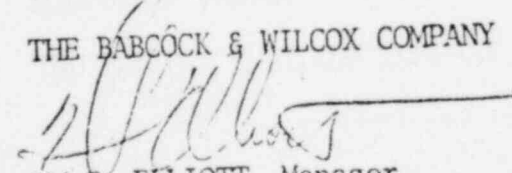

Dear Mr. Tsaggaris:

This letter is to report the completion of Babcock & Wilcox's "Cold License" Certification training program which has been conducted for Metropolitan Edison Company. The program, conducted by the Company from January 10, 1977 to March 4, 1977, consisted of an eight-week simulator operation course.

Based on his performance on a simulated NRC licensing examination and a startup, oral, and operating examination given at the end of the PWR simulator operations course, Babcock & Wilcox certifies that Gerry Thompson has demonstrated sufficient knowledge and performance capability to be considered to have extensive experience in Nuclear Power Plant Operations to be considered as eligible for "Cold License" examination at the Reactor Operator level.

Sincerely yours,

THE BABCOCK & WILCOX COMPANY

  
N. S. ELLIOTT, Manager  
Contract Services & Controls
