September 19, 1974

File #9H(14) AEC 2-74

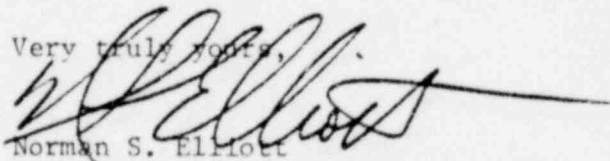

Mr. Paul F. Collins
Chief, Operator Licensing Branch
U. S. Atomic Energy Commission
Washington, D. C. 20545

Dear Mr. Collins:

Based on your review of Babcock & Wilcox's proposed program "Reactor Startup Certification" forwarded in my letter 9 H (14) AEC 1-74 dated August 30, 1974 and our telephone discussions during the week of September 9, 1974, I have revised the proposed program. My revised program is shown in Attachment I.

If this modified program is acceptable with you, I will assemble this attachment with the examination description and forward it to you as a complete package so that we will both have one document to refer to in relation to this program.

Very truly yours,

Norman S. Elliott
Manager, Nuclear Training
