**Type of Order:** ORDER CONFIRMING SUSPENSION OF CONSTRUCTION

**Issue Date:** August 15, 1979

**Reason for Order:** Identification over the past few months of serious problems at the Marble Hill facility relating to the adequacy of concrete placement and the licensee's quality assurance program. The licensee issued a stop work order on August 7, 1979, for all safety-related construction and this Order is to confirm the licensee's action.

**Summary:** Under the terms of the Order, the licensee shall not resume safety-related construction activity on the Marble Hill Units 1 & 2 nuclear power station until the licensee submits in writing under oath to the Director, Office of Inspection and Enforcement, a description of its revised quality assurance program and the steps taken to assure that safety-related construction will be conducted in accordance with Appendix B of 10 CFR Part 50 of the Commission's regulations; and the IE Director has confirmed in writing that reasonable assurance exists that safety-related construction activities will be conducted in accordance with such requirements. Such confirmation may extend in whole or in part to the suspended construction activities.
